Value your time.

Some psychologists consider the urge to check social media sites to be an **addiction**.

At the same time, there are millions of people that want to learn a new language. It is estimated that **by 2020** there will be about **a billion** people learning English alone.

Integration with Zeeguu

When you enter a "blacklist" site, you get redirected to a language learning exercise :

What happens in the back?

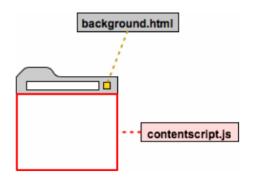

- 1. You enter "facebook.com" in your broswer.
- 2. The extension checks if the URL is in the blacklist
- 3. Ohh, you want to procrastinate!

The extension will **store** the site that you initially wanted to go, then you are **redirected to the Zeeguu exercise**

4. After you finish the exercise (or after you pressed the lazy button, you lazy person) you will have the option to return to your original site or to continue with Zeeguu's exercises
